Visiting a sexual health clinic isn't as daunting as you might think

Most cater specifically for young people and all have nurses, doctors and health advisors on hand for you to talk to. From pregnancy tests and emergency contraception to advice on relationships and sexually transmitted infections, clinics are there for you to use and there's no charge.

We won't tell your school, GP or parents that you have visited.

Still worried? There's really no need to be...

---

THE WORLD'S FINEST CONDOMS
EXPERT ADVICE ABOUT SEX AND RELATIONSHIPS
NO LECTURES, NO WAIT, NO FUSS
FREE AND CONFIDENTIAL

Chlamydia is the most commonly diagnosed STI but most people who catch it don’t get any symptoms. Say yes to the test and find out if you’ve got it. Remember you won’t be protected against STIs without a condom. Order a free kit at [www.checkurself.org.uk](http://www.checkurself.org.uk)

The implant, injection & IUD are all hassle free methods of contraception. They all are: Safe, Reliable and Long Lasting

All are over 99% effective. Remember these methods will only protect against pregnancy. Always use a condom.

CONTRACEPTION. SORTED.
